AND CHEMICALS & FERTILISERS
GOVERNMENT OF INDIA

It gives me immense pleasure to extend my warm greetings and best wishes to the Plastindia Foundation on the launch of **PLASTINDIA 2028**, the 13th International Plastics Exhibition, Conference & Convention, to be held at Bharat Mandapam, New Delhi, from 10th to 14th February 2028, on the theme **"POWERING VIKSIT BHARAT."**

The Indian plastics industry has emerged as a significant contributor to the nation's economic growth, manufacturing capabilities, employment generation and exports. With a strong MSME base, growing technological capabilities and increasing emphasis on innovation, skilling and sustainability, the sector has an important role to play in strengthening India's position as a global manufacturing hub.

PLASTINDIA has, over the years, provided a prestigious platform for industry, academia, innovators and global stakeholders to exchange ideas, showcase technological advancements and explore new opportunities. The forthcoming edition will further advance this endeavour by highlighting India's manufacturing strength, technological innovation, skill development and circular economy solutions.

The theme **"POWERING VIKSIT BHARAT"** aptly reflects the commitment of the plastics industry towards contributing to the vision of a developed India by 2047. I am confident that PLASTINDIA 2028 will provide fresh impetus to investment, innovation, sustainability and global collaboration in the plastics and petrochemicals sector.

I extend my best wishes to the Plastindia Foundation, its members and all stakeholders for the successful launch of PLASTINDIA 2028 and for the grand exhibition in New Delhi.
