PLASTINDIA 2026: Where Industry, Innovation and India's Future in Plastics Converged

Ravish Kamath
President,
Plastindia Foundation

As PLASTINDIA 2026 draws to a close, there is a deep sense of pride, gratitude and optimism for the future of our industry. The overwhelming response from across the entire value chain has been truly heartening. Every hall, every aisle and every booth resonated with energy, purpose and positivity. The vibrancy of discussions, the confidence in investments and the forward-

continued from page 1

looking conversations all signal a strong, resilient industry moving decisively into the future.

The partnerships and collaborations shaped here will play a significant role in building the 'Bharat Next' vision. The Indian plastics industry today stands as a critical pillar of the nation's manufacturing economy. Valued at approximately Rs. 3.9 lakh crore in 2025, it is projected to grow to nearly Rs. 5.4 lakh crore by 2030. With India's GDP expected to grow at 11% - 12% and the plastics industry advancing at an even faster pace of 13% - 14%, this momentum is both, significant and inspiring.

PLASTINDIA 2026 has captured this growth trajectory, reinforcing India's position as a global force while charting a clear course towards a circular and sustainable economy. The ideas, innovations, serious business discussions, agreements and collaborations witnessed here are not only strengthening the industry, but also contributing - silently, yet powerfully - to the larger vision of 'Viksit Bharat'.

Lastly, I express my deepest gratitude to all stakeholders — our exhibitors, visitors, sponsors, vendors, exhibition partners, policymakers, the Plastindia Foundation team, the organising committees, and every individual who contributed to making PLASTINDIA 2026 a resounding success.

PLASTINDIA 2026 celebrates industry confidence, collaboration, innovation and sustainability.

Nitin Naik

Director,
Nitu Technical Services,
FUI-CHA Co. Ltd.

This is our fourth year participating in PLASTINDIA, and as always, we have successfully achieved our objectives. Our primary goal is to inform industry stakeholders about our presence, as our technology is highly relevant to both, the automotive and medical sectors.

The immense and genuine footfall at PLASTINDIA 2026 enabled us to effectively reach our target customers. PLASTINDIA continues to evolve each year and we look forward to growing alongside it in the years ahead.

Husen Jhabuawala

Sr. Manager Marketing,
Rajfilters and Wiremesh
Pvt. Ltd.

PLASTINDIA 2026 is a well-organised, customer-focused exhibition. We connected with new customers and identified opportunities that will support our future business growth. The exhibition has witnessed strong visitor turnout, and the overall response has been excellent.

SHUBHAM EXTRUSION
AN ADVANCED BLOWN FILM TECHNOLOGY

SMART MANUFACTURING OF BLOWN FILM LINES, AT INDIA'S BIGGEST ASSEMBLY SHOP

Shubham had sowed a seed in 1998 that was fed with knowledge and intelligence, nurtured with integrity and commitment, sustained with technology and expertise. The seed has blossomed into a plant (the largest in India) building 'Made in India' products that are well accepted globally! Sustainably yours!

- Shop floor spread over a sprawling 2,00,000 sq. ft. area.
- A gigantic infrastructure across the manufacturing process (customised / standard)
- Ceiling height of over 65 feet to produce high throughput lines of 1,000 kgs/hr, and more
- A 30,000 sq. ft. dedicated zone to simultaneously produce 8 - 12 high throughput lines
- Dedicated innovation hub for new product development
- Efficient dispatch system can daily load 10 trucks and pack 4 containers
- One of the largest storeroom and powder coating facility, backed by a committed supply chain
- Industry 4.0 ready solutions
- Facility compliant to highest levels of industrial safety

Customer Delight
Setting an industry standard of the shortest delivery

Union Minister Shri Chirag Paswan Releases Plastics Industry Status Report 2025 and Felicitates Winning Startups

continued from page 1

Union Minister Shri Chirag Paswan's visit to PLASTINDIA 2026 spotlighted sustainability, innovation, startups and the launch of the Plastics Industry Status Report 2025.

During his visit, the Union Minister released the Plastics Industry Status Report 2025 and presented awards to the winners of the Startup Search Initiative, developed by the Plastindia Foundation in collaboration with IIM Calcutta Innovation Park (IIMCIP).

Addressing the industry stakeholders, Shri Chirag Paswan emphasised the need to minimise wastage and leverage technology to drive sustainability in line with the vision of Viksit Bharat. He appreciated the plastics industry

for its collective efforts towards sustainable manufacturing, while contributing to national growth and self-reliance.

He further mentioned that the plastics industry and the food processing industry are closely related, as plastics can extend the shelf-life of food. Furthermore, he appreciated the scale and stature of PLASTINDIA 2026 saying that there is a strong need to replicate such a scale of exhibition in other industries.

Advising manufacturers, he emphasised the importance of uncompromising quality, stating, "When substandard products are exported and rejected overseas, it not only harms the company's reputation, but also tarnishes the image of Brand India. Manufacturers must commit to excellence, producing only the highest-quality products to take Brand India to greater heights."

Speaking on the significance of the industry report, Ravish Kamath, President, Plastindia Foundation said, "The Plastics Industry Status Report 2025 is a vital knowledge document that captures the industry's current landscape, growth drivers, export potential and

sustainability transition. It provides valuable insights for policymakers, investors and industry leaders to support informed decision-making and long-term growth."

He added that PLASTINDIA 2026, India's first-ever 100% 'Zero-Waste' exposition, is hosting over 2,000 exhibitors and is expected to attract more than 6 lakh visitors from India and overseas, showcasing the scale, strength and global competitiveness of the Indian plastics industry.

Highlighting the role of startups and innovation, Alok Tibrewala, Chairman - NEC, PLASTINDIA 2026 said, "Startups and innovation are critical to building a future-ready plastics industry. The Startup Search Initiative reflects our commitment to nurturing solutions focused on sustainability, recycling, advanced materials and circular economy practices."

He further added, "From over 150 applicants, 10 startups have been shortlisted and awarded Rs. 2 lakh cash prize each, along with a complimentary booth at PLASTINDIA 2026. We applaud these winners for their innovative technologies and solutions, which represent the next phase of responsible industry growth."

Celebrating Every Contribution Behind the Mega Success of PLASTINDIA 2026

Alok Tibrewala, Chairman - NEC, PLASTINDIA 2026

continued from page 1

From day one, PLASTINDIA 2026 stood out as something historic - one of the largest and most visually striking exhibitions India has ever hosted. Global exhibition leaders, policymakers, government representatives and international delegates shared a single message: India has demonstrated the capacity, capability and confidence to host world-class exhibitions - not only in scale, but in standards, aesthetics and stature.

When we chose the theme 'Bharat Next', it carried deep responsibility and purpose. The word 'Bharat' represents dignity, meaning and pride. Our intent was clear - to show the world what 'Bharat' truly stands for. From our 'Zero-Waste' vision to our focus on visitors' comfort, aesthetics and a seamless visitor experience, guided by the spirit of 'Atithi Devo Bhava', every detail reflected that responsibility.

Participants appreciated the ease of entry, comfort, connectivity, infrastructure and the joy of moving through the exhibition with ease. We promised seamless connectivity and comfort - and delivered world-class

PLASTINDIA 2026 - a high-impact edition - sets new standards for exhibitions in India, not just in scale, but also in values.

facilities, ample spaces, digital access and a visitor experience where service met people before they had to ask. As I often say, luxury is when you don't wait for service - the service waits for you.

PLASTINDIA 2026, with over 5 lakh visitors, 75,000+ sqm of exhibition space, a 12,000 sq. ft. open air museum and creating India's most ambitious sustainable exhibition model with zero-waste, has set new benchmarks for the country.

PLASTINDIA is not just an exhibition - it is a movement. It represents every entrepreneur, worker, innovator and dreamer contributing to nation-building. As we move forward, let sustainability remain our foundation, responsibility our compass and excellence our standard. This edition has truly been historic - in scale, spirit and impact, with exhibitors expressing strong satisfaction with footfall quality, business engagement and the long-term opportunities created.

Let PLASTINDIA become a benchmark not just for scale, but for values. And from here, India will only move upwards. It is our time now; the next decade belongs to India!

Food at Your Fingertips

In-App Food Ordering Adds Convenience at PLASTINDIA 2026

PLASTINDIA 2026 is enhancing convenience for exhibitors and visitors through a dedicated mobile app. While the exhibition features multiple food courts offering global cuisines, busy schedules often make it difficult to step away from stalls during peak hours.

To address this, the Plastindia Foundation has integrated a food-ordering feature within the PLASTINDIA mobile app, enabling food to be ordered and delivered directly to exhibition pavilions. Integrated with a secure online payment gateway, the app ensures quick, cashless transactions and smooth, hassle-free delivery across the venue.

By eliminating the need to walk to food courts or stand in queues, this initiative helps exhibitors save time and energy, allowing them to spend more time engaging with visitors, hosting meetings and showcasing innovations.

Plastics Industry Status Report FY25: 'Bharat Next - Shaping the Future of Plastics'

The Plastics Industry Status Report FY25 outlines key regulatory practices, technology adoption and evidence-based insights to balance economic growth with environmental compliance, guiding the future of the plastics industry.

Bharat is the fastest-growing among major economies and is now the world's fourth-largest economy. Within this growth story, the Indian plastics industry is emerging as one of the country's most dynamic manufacturing sectors, playing a critical role in both domestic value chains and global markets.

The plastics sector supports a wide spectrum of applications - ranging from packaging of agricultural produce and processed foods; automotive and aerospace components; from defence systems and drone parts to consumer goods and household products. It is deeply integrated with India's expanding industrial base and rapidly evolving consumer ecosystem.

The Plastics Industry Status Report FY25, themed 'Bharat Next - Shaping the Future of Plastics', is a comprehensive assessment of India's plastics industry. The report consolidates data, trends, and insights across the entire value chain, covering key metrics such as:

- Installed polymer production capacity and demand dynamics.
- Machinery and tooling ecosystem.

- Trade flow including exports and imports - from raw materials to finished goods.
- Sector-wise growth drivers.
- Technological adoption and innovation trends.
- Plastics in renewable energy sectors and the adoption of renewable energy by the plastics industry - trend towards green manufacturing.
- Sustainability, recycling and circular economy initiatives.

The report also examines major government policy initiatives, including Make in India, Jal Jeevan Mission, PLI Schemes, Swachh Bharat Mission, Skill India and related industrial and sustainability frameworks influencing the plastics sector.

The Plastics Industry Status Report FY25 will help to play a vital role in shaping:

- Policy and regulatory strategies - by providing an empirical foundation for decisions related to manufacturing ecosystems, plastics waste management rules, and export promotion.
- Private sector investment and technology

adoption - by identifying high-growth segments such as packaging, automotive components, speciality polymers, and sustainable materials including biopolymers.

- Environmental and sustainability goals - by establishing baseline metrics on recycling rates, waste recovery, and the transition towards circular economy models.

Industry Impact

For industry stakeholders, the report will enable benchmarking of performance against national and global peers. For policymakers, it offers evidence-based insights to design interventions that balance economic growth with environmental compliance. For researchers and analysts, it serves as a credible reference on plastics sector trends across segments and over time.

Overall, the Plastics Industry Status Report FY25 is positioned as a benchmark document for industry participants, policymakers, researchers, and investors seeking a detailed, data-driven understanding of the current state and future prospects of India's plastics industry.

PLASTINDIA 2026 stands out for its sheer scale - volume, size and infrastructure in every aspect. While we have participated in several other exhibitions in the past, PLASTINDIA is truly different. We successfully achieved our objectives, benefitting from a strong volume of customers, comfortable discussion space, excellent infrastructure and well-managed facilities. India is an important market with immense potential, and we have received several promising leads to follow up on post-event.

Mavjibhai Limbasiya

Chairman,
Dolphin Polyfill Pvt. Ltd.,
Dolphin Colortek Pvt. Ltd.

Our participation at PLASTINDIA has been truly enriching. The event offered a unique opportunity to engage with a diverse range of customers, industry experts and potential partners across the plastics value chain. It enabled in-depth discussions on product quality, application requirements, sustainability initiatives and emerging market trends, helping us build meaningful connections and strengthen existing relationships.

The exhibition's well-organised layout and vibrant atmosphere provided an ideal platform to explore new business opportunities and gain valuable insights into evolving customer needs and industry directions.

Redefining Exhibitor Experience at PLASTINDIA 2026

Rajiv Karnani
 Member - Water Distribution Committee, NEC, PLASTINDIA 2026

Our committee was entrusted with the critical responsibility of ensuring adequate hydration for thousands of exhibitors and visitors throughout PLASTINDIA 2026. With unwavering commitment, meticulous planning and seamless on-ground execution, we ensured uninterrupted access to safe drinking water across the entire exhibition venue.

I am sincerely grateful to the PLASTINDIA 2026 Organising Committee for the trust placed in us and for the opportunity to contribute meaningfully to the success of this landmark event.

Being part of PLASTINDIA has been a great experience. We were already aware of the potential of the Indian market, and witnessing it firsthand at PLASTINDIA has reaffirmed our decision to expand and work in India.

Abdul Salam Aurif
 Sales and Marketing Executive,
 Flora International Plastic Factory

Kudos to PLASTINDIA for organising a well-managed exhibition with a strong focus on the 'Zero Waste' theme.

PLASTINDIA 2026 has provided us with an excellent launch platform to showcase our major achievement - Sumolex, India's first BIS-certified company for CPVC fittings.

Arvind Kumar
 Regional Sales Manager,
 Sumo Polyplast Pvt. Ltd.

At PLASTINDIA 2026, the global plastics industry comes together to collaborate, connect and grow. It serves as an outstanding platform that brings together industry leaders and key stakeholders, making it a one-stop destination for manufacturers and traders to explore innovative solutions and build strong, lasting business relationships.

Vipul Jain
 CEO,
 Abir Overseas LLC

This is our first edition at PLASTINDIA, and we are truly overwhelmed by the response received. Over the first four days, we have interacted with more than 400 visitors, and all our company literature - including flyers and brochures - has been completely distributed.

The volume of footfall at the exhibition has been immense and we are extremely pleased with our decision to participate in PLASTINDIA.

Dominique Barb
 Assistant of COO,
 Dursol Fabrik Otto Durst GmbH & Co. KG

We are participating in PLASTINDIA for the first time and are pleased to be part of the event. It is an important platform for engaging with stakeholders and building our business and client base.

Kelsey Kang
 General Manager / Marketing Dept.,
 Yechan Co., Ltd.

It has been an excellent experience being part of PLASTINDIA. The event provided a valuable opportunity to connect with local distributors. As an importer, looking to expand our operations in India, PLASTINDIA offered the right platform and a well-filtered database to engage with potential distribution partners and effectively penetrate the Indian market through a strong local network.

PLASTINDIA 2026's Zero-Waste Initiative Meets Resounding Success in the First Three Days Itself

PLASTINDIA 2026's zero-landfill vision is not a one-time initiative but a continuously evolving, live sustainability operation. Waste management at the venue is running round-the-clock, with collection, segregation and processing taking place in real time across all zones of the exhibition. As footfall, food services and exhibition activity increase, systems have been dynamically scaled to match the growing waste flows.

As of 7th February, 2026, 98 metric tonnes of waste had already been processed, reflecting the robustness of the decentralised model and the efficiency of the on-site and off-site Material Recovery Facilities. Every waste stream is being tracked, sorted and channelled into its defined sustainability pathway - recycling, reuse or composting - ensuring that nothing is sent to landfill.

PLASTINDIA 2026 deployed services of nearly 300 personnel, including 75 volunteers to monitor waste bins to guide waste segregation at source, have transformed sustainability from intent into execution. What is unfolding at the venue is a continuous circular process, demonstrating that large-scale exhibitions in India can operate responsibly, efficiently and sustainably at scale.

PLASTINDIA 2026 is not just managing waste - it is setting a new operational benchmark for circular, zero-landfill events in the country.

PLASTINDIA 2026 Mobile App: Transforming Lead Management for Exhibitors

The PLASTINDIA 2026 mobile app streamlines networking with QR-based lead capture, offline functionality and an intuitive dashboard, ensuring exhibitors convert every booth interaction into a business opportunity.

The PLASTINDIA 2026 mobile app enhances convenience and connectivity in multiple ways. Beyond essential features such as the site map, offline accessibility and easy contact search, the app comes integrated with a powerful 'Lead Retrieval' system - designed to make every interaction count.

The 'Lead Retrieval' feature is a QR code-based solution that gives exhibitors instant access to visitor contact details directly on their smartphones. This eliminates traditional practices like exchanging visiting cards, ensuring a cleaner, faster and more efficient networking experience.

At the heart of this system is an intuitive 'Lead Dashboard', offering exhibitors complete visibility over

their captured leads. Users can view scanned lead counts, analyse data by attendee category or rating, and access an in-built QR scanner for effortless lead capture. The ability to export all leads to a registered email address adds another layer of convenience.

The 'Lead List' function further enhances usability. Exhibitors can browse all captured leads in one place, search for any visitor using a universal search bar, filter entries by rating and forward the entire list in a CSV format to their email.

Importantly, the app is designed to perform reliably even in low-connectivity situations - a common challenge during large-scale events. Lead scanning works offline, storing data locally until the

network connectivity is restored. Once connected, a simple 'Sync' updates all information to the 'Lead Retrieval' cloud server, ensuring no data is lost.

With features built around speed, accuracy and reliability, the PLASTINDIA 2026 mobile app promises to elevate the trade show experience for exhibitors and visitors alike - turning every interaction at the booth into a meaningful business opportunity.

With each attendee able to download the PLASTINDIA 2026 mobile app from the Play Store or App Store, activation becomes seamless - either by scanning their event badge or logging in with their email ID.

At the heart of this system is an intuitive 'Lead Dashboard', offering exhibitors complete visibility over their captured leads. Users can view scanned lead counts, analyse data by attendee category or rating, and access an in-built QR scanner for effortless lead capture.

Global Exhibitors Signal Long-Term Commitment to India at PLASTINDIA 2026

PLASTINDIA 2026 has emerged as a globally aligned exhibition, delivering strong business engagement, quality visitors and long-term market confidence for exhibitors.

As per our discussions with exhibitors, the response to the show has been extremely positive. They are highly satisfied with both, the exhibition and the quality of visitors they have received. For many participants, these days have already translated into meaningful business interactions and strong engagement, making the show a clear success for us.

India is viewed by most exhibitors as one of their most important future markets and this is reflected in the scale and seriousness of their participation. Many companies have invested significantly in this exhibition, coming in with clear business objectives and long-term market strategies. Several exhibitors have also shared that PLASTINDIA is the key exhibition for them to focus on in India.

Exhibitors who participated in the previous edition have specifically highlighted the visible improvement in the overall quality, organisation and management of the show. They described this edition as being aligned with international standards and expressed their intention to continue participating in future editions.

Rameshbhai Patel
Managing Director,
Deep Polymers Limited

PLASTINDIA 2026 is a well-organised and impactful exhibition. The scale and diversity of exhibitors, including strong international participation, created significant business opportunities and reinforced PLASTINDIA's position as a leading global plastics event.

The footfall is impressive, with this edition attracting genuine visitors, particularly decision-makers, OEMs and international buyers, making B2B interactions highly meaningful and resulting in valuable leads and collaborations.

Chandan Katheriya
Marketing Executive,
Eewa Engineering
Co. Pvt. Ltd.

With over two decades of experience participating in PLASTINDIA, this year has been fantastic from a business perspective. We have received enquiries from both, India and international markets, including Saudi Arabia and the Netherlands. The customer response has been highly appreciable, and we have far exceeded our set targets. In short, the response at our stall has been exceptional.
