PLASTINDIA 2023

Will Usher In New Innovations And Sustainable Growth

PLASTINDIA 2023 focuses on innovation, sustainability, and growth facilitating new innovative techniques that will help to maintain a cleaner environment and lead to sustainable economic growth. Inspired by the UN sustainable development goals (SDG), this exhibition will showcase Plastics playing an important role in circular economy and sustainability and thus fostering the development of Indian Plastics Industry.

The 11th PLASTINDIA Exhibition will be held from 01st to 05th February 2023 at newly built State of the Art International Exhibition Centre at Pragati Maidan, New Delhi, India . With more than 40,00,000 square feet of built-up area, it has ultra modern Exhibition Halls which will provide world class exhibition experience. The exhibition centre can accommodate 5000 car parking within the ground.

Bringing Innumerable Opportunities For the Plastics Industry

PLASTINDIA Exhibition is an excellent platform for the Industry players to come together and explore the Innovative technologies for sustainable growth. Reverse Buyer Seller Meet (RBSM), which attracts genuine overseas buyers, provides opportunity to the exhibitors to meet and export their products world over.

PLASTINDIA 2023 will provide an excellent opportunity for Exhibitors to showcase their new innovations in Processing Machineries, Moulds & Dies, Auxiliary Equipment, Printing & Packaging, Finished products, Raw materials etc. Visitors will be able to update themselves with the latest offerings of Plastics sector presenting an unmissable networking opportunity for the Exhibitors and Visitors.

The fourth Industrial revolution is constantly in the minds of Industry leaders. The advent of Industry 4.0 in the Plastics sector signals that latest Robotic technology are being deployed, creating a rapidly evolving landscape.

PLASTINDIA 2023 Goals as we grow together as an industry

MAKING INDIA THE NUMBER ONE DESTINATION FOR MANUFACTURING PLASTICS

FACILITATE GROWTH OF INDIAN PLASTICS INDUSTRY

CREATING EMPLOYMENT OPPORTUNITIES TO EMPOWER THE ECONOMY OF COUNTRY

MAKE INDIA A GLOBAL SOURCING HUB FOR PLASTICS

TO ENCOURAGE NEW INNOVATIVE TECHNIQUES

Creating A Circular Economy For Plastics

Plastics is one of the most significant materials used for the betterment of mankind. Plastics play a vital role in various sectors such as Infrastructure, Construction, Housing, Automobiles, Furniture, Agriculture, Stationary and Homeware, Medical equipment, Packaging, Electronics, Electrical appliances, Sports Equipment, F&B, Pharmaceutical Equipment, Renewable Energy etc.

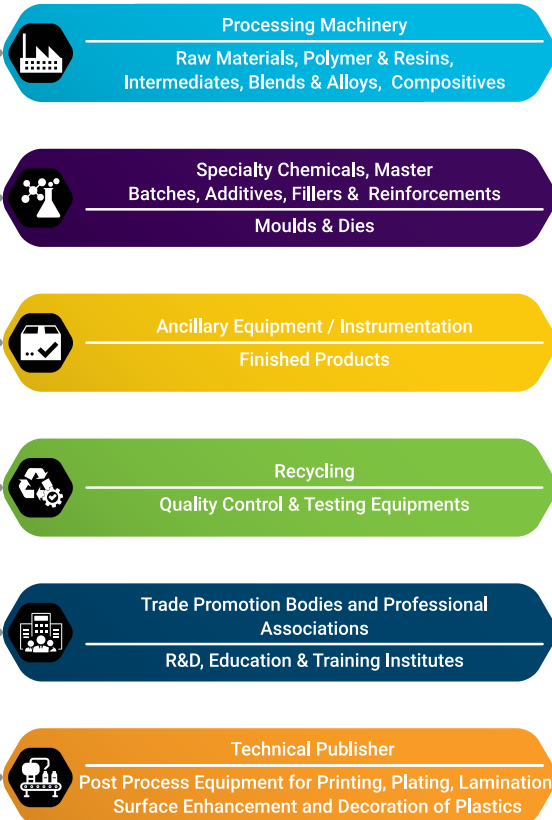

technologies. These innovations have led to environment-friendly processing and utilisation of Plastics without affecting the environment.

With an aim to push ground-breaking innovations that help us nurture nature and bring in accelerated growth, **PLASTINDIA FOUNDATION** is hosting the **11th International Plastics Exhibition, Conference & Convention** in the year 2023 at New Delhi, India.

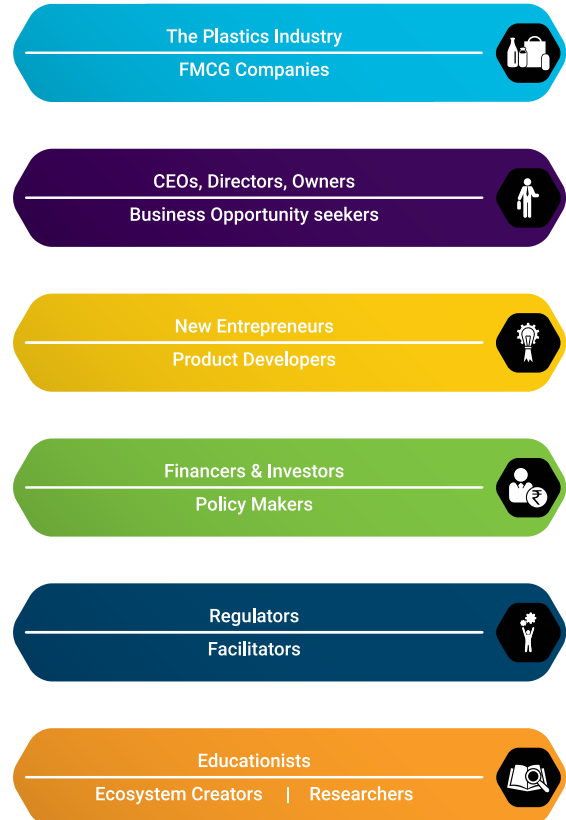

With time, the Plastics industry has reinvented itself with advanced innovations in recycling

Indian Plastics Industry at A Glance

Globally, Plastics Industry is growing at a rapid pace. Since its inception, the industry has contributed to the various sectors and made a positive impact on human lives.

The production and consumption of Plastics in India have increased many fold in last 3 decades. In 2021-22 the consumption of Plastics was approx. 22 MMT, compared to 0.9 MMT in 1990.

The demand is expected to reach 28 MMT by 2025. The nation's GDP growth is in strong relation with the Petrochemical sector growth. The Industry employs about 4 million people and comprises more than 50,000 processing units, 85-90% of which are small and medium-sized enterprises. In 2018, the overall size of the Plastics industry was 5.1 Lakh crores (73 Billion US Dollars). **The Sector is expected to reach 9.1 lakh crores (102 Billion US Dollars) by 2025.**

Plastics - a major contributor in India's Growth Story

India - the 5th largest economy in the world is marching towards 5 Trillion Economy mark. The Plastics Industry will play a significant role in accelerating the pace towards getting there.

International Plastic Processing Hub

With the Government of India launching the 'Atmanirbhar' movement and the push for 'Vocal for Local' initiative, the current

business environment gives an impetus to the business's growth and provides excellent export opportunities. India is poised to become the Plastics processing hub of the world. **Indian Exports of Plastics in the year 2019-20 was USD 10.00 Billion, which is expected to reach to USD 25.00 Billion by the year 2025.**

The Journey Of PLASTINDIA Exhibitions

Established in 1987, **PLASTINDIA FOUNDATION** is the apex body of major association, organisations, and institutions connected with Plastics focused to promote the development of the Plastics industry and to assist the growth of Plastics and related materials. **The Foundation is committed to the nation's growth with the development of the Plastics sector.**

The aim of this organisation is to facilitate the export-led growth of the Indian Plastics industry and help boost exports growth both in volume and revenues. It is focused to make India the number one destination for the preferred sourcing base of Plastics products in the world.
